

Groundwater Sustainability Plan for Sonoma Valley Groundwater Subbasin

Table of Contents

1	INTRODUCTION	1-1
1.1	Purpose of Groundwater Sustainability Plan	1-3
1.2	Guide to the Groundwater Sustainability Plan.....	1-4
1.3	Groundwater Sustainability Agency Authorities and Administrative Information	1-11
1.3.1	Sonoma Valley Groundwater Sustainability Agency	1-12
1.3.2	Sonoma Valley Groundwater Sustainability Agency Board and Advisory Committee.....	1-12
1.3.3	Groundwater Sustainability Agency Coordination.....	1-13
1.4	Stakeholder Engagement and Communication.....	1-14
1.4.1	Beneficial Uses and Users of Groundwater	1-14
1.4.2	Sustainable Groundwater Management Act Phases of Work.....	1-14
2	DESCRIPTION OF THE PLAN AREA (23 CCR 354.8 b)	2-1
2.1	General Setting and Jurisdictional Areas (23 CCR 354.8 b)	2-1
2.2	General Land Use Characteristics (23 CCR 354.8 b)	2-6
2.3	Water Source Types and Water Use Sectors (23 CCR 354.8 b)	2-10
2.3.1	Groundwater	2-12
2.3.2	Imported Surface Water.....	2-12
2.3.3	Local Surface Water.....	2-12
2.3.4	Recycled Water	2-12
2.4	Existing Monitoring Programs and Networks (23 CCR 354.8 c, d, e).....	2-15
2.4.1	Groundwater-level Monitoring	2-15
2.4.2	Groundwater Quality Monitoring.....	2-17
2.4.3	Climate Monitoring	2-18
2.4.4	Surface Water Monitoring.....	2-19
2.5	Existing Management Programs and Studies (23 CCR 354.8 c, d, e)	2-22
2.5.1	Sonoma Valley Groundwater Management Program.....	2-22
2.5.2	Bay Area Integrated Regional Water Management Plan	2-23
2.5.3	Urban Water Management Planning.....	2-23

- 2.5.4 Water Conservation Programs2-25
- 2.5.5 Climate Change Studies and Planning2-27
- 2.5.6 Groundwater Banking Feasibility Study.....2-27
- 2.5.7 Sonoma Valley Salt and Nutrient Management Plan.....2-28
- 2.5.8 Stormwater Management Planning2-29
- 2.6 General Plan and Related Land Use Planning2-29
 - 2.6.1 General Plans.....2-30
 - 2.6.2 Specific Plans2-33
 - 2.6.3 Sonoma County Local Agency Formation Commission.....2-33
- 2.7 Well Permitting Policies and Procedures2-34
 - 2.7.1 Well Permitting2-34
- 3 BASIN DESCRIPTION3-1
 - 3.1 Hydrogeologic Conceptual Model.....3-1
 - 3.1.1 Topography and Geography3-2
 - 3.1.2 Surface Water and Drainage Features.....3-2
 - 3.1.3 Soil Characteristics3-4
 - 3.1.4 Regional Geologic Setting.....3-4
 - 3.1.5 Principal Aquifer Systems and Aquitards.....3-19
 - 3.1.6 Effects of Faults on Groundwater3-28
 - 3.1.7 Natural Groundwater Recharge and Discharge3-28
 - 3.1.8 Data Gaps and Uncertainty.....3-33
 - 3.2 Current and Historical Groundwater Conditions.....3-34
 - 3.2.1 Climatic Conditions and Trends3-35
 - 3.2.2 Groundwater Elevations and Trends3-37
 - 3.2.3 Groundwater-Level Contour Maps.....3-37
 - 3.2.4 Groundwater-Level Trends.....3-55
 - 3.2.5 Land-Surface Subsidence.....3-59
 - 3.2.6 Groundwater-Quality Conditions and Trends.....3-60
 - 3.2.7 Surface Water and Groundwater Connectivity.....3-84
 - 3.3 Water Budget3-104
 - 3.3.1 Overview of Water Budget Development.....3-104
 - 3.4 Overview of Model Assumptions for Water Budget Development.....3-113
 - 3.4.1 Historical and Current Water Budgets.....3-115

3.4.2 Subbasin Water Supply Reliability3-125

3.4.3 Uncertainties in Water Budget Calculations.....3-126

3.4.4 Projected Water Budgets3-127

3.5 Sustainable Yield.....3-139

3.6 Management Areas3-141

4 SUSTAINABLE MANAGEMENT CRITERIA.....4-1

4.1 Definitions4-2

4.2 Sustainability Goal4-4

4.2.1 Description of Sustainability Goal.....4-4

4.2.2 Measures to Achieve Sustainability Goal.....4-4

4.3 General Process for Establishing Sustainable Management Criteria.....4-5

4.4 Sustainable Management Criteria Summary4-6

4.5 Chronic Lowering of Groundwater-levels Sustainable Management Criteria4-6

4.5.1 Locally Defined Significant and Unreasonable Conditions.....4-11

4.5.2 Minimum Thresholds.....4-11

4.5.3 Measurable Objectives.....4-24

4.5.4 Undesirable Results.....4-25

4.6 Reduction in Groundwater Storage Sustainable Management Criteria4-27

4.6.1 Locally Defined Significant and Unreasonable Conditions.....4-27

4.6.2 Minimum Thresholds.....4-27

4.6.3 Measurable Objectives.....4-29

4.6.4 Undesirable Results.....4-29

4.7 Seawater Intrusion Sustainable Management Criteria4-30

4.7.1 Locally Defined Significant and Unreasonable Conditions.....4-31

4.7.2 Minimum Thresholds.....4-32

4.7.3 Measurable Objectives.....4-36

4.7.4 Undesirable Results.....4-36

4.8 Degraded Water Quality Sustainable Management Criteria.....4-38

4.8.1 Locally Defined Significant and Unreasonable Conditions.....4-39

4.8.2 Minimum Thresholds.....4-40

4.8.3 Measurable Objectives.....4-48

4.8.4 Undesirable Results.....4-49

4.9 Subsidence Sustainable Management Criteria4-50

- 4.9.1 Locally Defined Significant and Unreasonable Conditions4-51
- 4.9.2 Minimum Thresholds.....4-51
- 4.9.3 Measurable Objectives4-54
- 4.9.4 Undesirable Results4-54
- 4.10 Depletion of Interconnected Surface Water Sustainable Management Criteria.....4-56
 - 4.10.1 Locally Defined Significant and Unreasonable Conditions4-57
 - 4.10.2 Minimum Thresholds.....4-57
 - 4.10.3 Measurable Objectives4-63
 - 4.10.4 Undesirable Results4-63
 - 4.10.5 Consideration of Public Trust Resources4-65
- 5 MONITORING NETWORKS5-1
 - 5.1 Monitoring Network Objectives5-1
 - 5.2 Description of Monitoring Networks for Groundwater Sustainability Plan Implementation.....5-1
 - 5.2.1 Groundwater-level Monitoring Network.....5-1
 - 5.2.2 Groundwater Quality Monitoring Network5-4
 - 5.2.3 Surface Water Monitoring Network5-13
 - 5.2.4 Land Surface Elevation Monitoring Network.....5-16
 - 5.2.5 Seawater Intrusion Monitoring Network.....5-16
 - 5.3 Representative Monitoring Point Networks5-16
 - 5.3.1 Representative Monitoring Point Network for Chronic Lowering of Groundwater Levels5-16
 - 5.3.2 Representative Monitoring Point Network for Degraded Water Quality5-23
 - 5.3.3 Representative Monitoring Point Network for Depletion of Interconnected Surface Water.....5-23
 - 5.3.4 Representative Monitoring Point Network for Land Subsidence5-23
 - 5.3.5 Representative Monitoring Point Network for Seawater Intrusion5-23
 - 5.4 Assessment and Improvement of Monitoring Networks5-23
 - 5.4.1 Assessment and Identification of Data Gaps – Groundwater-level Monitoring Network.....5-27
 - 5.4.2 Assessment and Identification of Data Gaps – Surface Water Monitoring Network.....5-32
 - 5.4.3 Assessment and Identification of Data Gaps – Seawater Intrusion Monitoring Network.....5-32

6 PROJECTS AND MANAGEMENT ACTIONS6-1

6.1 Identification of Projects and Management Actions.....6-1

6.2 Project Descriptions.....6-2

6.2.1 Water-use Efficiency and Alternate Water Source Projects6-3

6.2.2 Recycled Water Expansion6-6

6.2.3 Aquifer Storage and Recovery6-8

6.2.4 Stormwater Capture and Recharge6-12

6.3 Evaluation of Projects Through Scenario Modeling6-14

6.4 Management Actions.....6-19

6.4.1 Development of Potential Policy Options for Groundwater Sustainability Agency Consideration.....6-20

6.4.2 Coordination of Farm Plans with Groundwater Sustainability Plan Implementation.....6-22

7 IMPLEMENTATION PLAN7-1

7.1 Governance Structure and Planned Administrative Approach7-1

7.2 Groundwater Sustainability Plan Implementation Components and Estimated Costs.....7-1

7.2.1 Administration and Finance.....7-1

7.2.2 Communication and Stakeholder Engagement7-2

7.2.3 Annual Monitoring, Data Evaluation, and Reporting7-3

7.2.4 Addressing Data Gaps.....7-7

7.2.5 Maintaining, Updating, and Making Improvements to the Model7-11

7.2.6 Study and Implementation of Projects and Actions7-12

7.2.7 5-year Update to Groundwater Sustainability Plan7-16

7.2.8 Estimated 5-year Implementation Costs7-17

7.3 Funding.....7-18

7.3.1 Fees, Grants, and Other Funding Sources.....7-19

7.4 Schedule7-19

8.0 REFERENCES8-1

8.1 Works Cited8-1

8.2 Sonoma Valley GIS Data Sources8-10

Appendices

- Appendix 1-A. Comments Received on Sonoma Valley Groundwater Sustainability Plan
- Appendix 1-B. Resolution of the Board of Directors of the Sonoma Valley Groundwater Sustainability Agency Forming a Groundwater Sustainability Agency for the Sonoma Valley Basin
- Appendix 1-C. Sonoma Valley Groundwater Sustainability Agency Board and Advisory Committee Members
- Appendix 1-D. Sonoma Valley Groundwater Sustainability Agency Advisory Committee Charter
- Appendix 1-E. Sonoma Valley Groundwater Sustainability Agency Advisory Committee Meetings 2017-2021
- Appendix 1-F. Community Engagement Plan for Development and Adoption of a Groundwater Sustainability Plan Sonoma Valley Groundwater Sustainability Agency
 - Appendix 1-F-1. Consideration of Interests, as required by SGMA
 - Appendix 1-F-2. Other Interested Parties
- Appendix 1-G. Stakeholder Assessment Report: Findings and Recommendations on Implementing the Sustainable Groundwater Management Act in Sonoma County
- Appendix 3-A. Water Year Type Classification for Petaluma Valley, Santa Rosa Plain, and Sonoma Valley
- Appendix 3-B. Groundwater Monitoring Well Hydrographs
- Appendix 3-C. Detailed Analysis of Short-Term and Seasonal Groundwater-Level Trends
- Appendix 3-D. Detailed Analysis of Interconnected Surface Water Based on Shallow Well Data
- Appendix 3-E. Sonoma Valley Integrated Groundwater Flow Model (SVIGFM); Modifications for Use in the Development of the Groundwater Sustainability Plan for the Sonoma Valley Groundwater Subbasin
- Appendix 3-F. Future Groundwater Demands and Land Use Changes
- Appendix 3-G. Selection of Global Circulation Model for Climate Change Projections
- Appendix 4-A. Preliminary Minimum Thresholds and Measurable Objectives for Shallow and Deep Aquifer System
- Appendix 4-B. Definition of Drought for Sonoma County Groundwater Sustainability Plans
- Appendix 4-C. Key Themes and Outcomes for Interconnected Surface Water Practitioners Work Group
- Appendix 4-D. Development of Sustainable Management Criteria of Interconnected Surface water – Sonoma Valley
- Appendix 5-A. Monitoring Protocols
- Appendix 5-B. Comparative Hydrographs – Chronic Lowering of Groundwater Levels Representative Monitoring Points
- Appendix 6-A. Simulation of Projects and Management Actions for the Sonoma Valley Groundwater Sustainability Plan
 - Appendix 6-A-1. Simulated Waterlevel Hydrographs from the Simulation of Projects and Management Actions
- Appendix 7-A. Model Maintenance and Improvements for the Sonoma Valley Groundwater Sustainability Plan
